## WASHINGTON SENTINEL.

VOL. 2.

## TRI-WEEKLY.

NO. 139.

CITY OF WASHINGTON, TUESDAY MORNING AUGUST 28, 1855.

BE it known that I, the subscriber oban apparatus for the destructive distillation of
wood, and the making therefrom of tar or pitch at
pleasure, and gas; and that in the judgment of
competent persons the invention of an appartus recently patented by W. D. Porter cannot be
used by him or any other person without infringing my said patent. And, further, that what is
patented by said Porter rightfully belongs to me,
as I expect to prove ere long before the United
States Patent Office; and, further, that the use of
said Porter's invention involves also a process

as I expect to prove ere long before the United States Patent Office; and, further, that the use of said Porter's invention involves also a process which I am now claiming before the United States Patent Office, and which has been adjudged to be patentable to the first inventor thereof, and which said W. D. Porter has formally disclaimed, as appears upon the public records of said office, of which an official copy is hereto annexed, and also a copy of his claims.

In the National Intelligencer of the 25th instant Mr. Porter announces that he has secured by patent the "exclusive right to making gas from wood," and threatens presecution to all parties infringing his patent. I ask how this statement comports with the fact of my patent of December, 1851, and how far the threat can intimidate under such circumstances? Mr. Porter's claim is based upon a movable perforated disphragm, and was so understood by the Patent Office, as it appears from the records of the Patent Office that his claim was at first refused as interfering with a prior patent to Robert Foulis, of Canada, for an equivalent contrivance. This claim, as given below, and in which the perforated diaphragm is the saving clause, is what Mr. Porter calls securing the "exclusive right to making gas from wood." The statement carries absurdity on its front, and is a libel on the good sense of the Patent Office If such a claim or right had been granted, it would forbid every coal-kiln and charcoal manufactory in the country.

The following copies of correspondence and extracts from the records of the Patent Office will show the true state of the case:

UNITED STATES PATENT OFFICE, August 25, 1854.

Siz. In reply to your letter of this date, asking "if any patent has been granted to W. D. Porter, dated 22d August, 1854, or at any other time, or dated 22d August, 1854, or at any other time, or to any other person or persons, securing to him or them "the exclusive right of making gas from wood," and whether any such claim was made by W. D. Porter, under his application for a patent, which letters patent were issued bearing the above date, you are informed that W. D. Porter's claims are believed to be c nfined to his apparatus; and, further, this office is not aware that a patent has been granted heretofore for the exclusive right of making gas from wood. It would, however, be unjustifiable to expect me to make an extended investigation to answer your request.

I am, respectfully, your obedient servant, C. Mason, Commissioner of Patents. W. B. McConaell, Esq., Care of Prof. C. G. Page, Washington, D. C.

The United States Patent Office—To all persons to whom these presents shall come, greting:
This is to certify that the annexed is a true copy from the files of this office of an extract from a from the files of this office of an extract from a paper filed in the inatter of the application of W. D. Porter for letters patent, in accordance with which application letters patent were issued to the said W. D. Porter on the 22d day of August, eighteen hundred and fifty-four.

In testimony whereof, I. Charles Mason, Commissioner of Patents, have caused the seal of the Patent Office to be hereunto affixed to the patent of our first of our first of our first of the patent of our first of our first of the patent of the pate

PROSPECTUS

"WASHINGTON SENTINEL." PROPOSE to publish in the city of Washing-ton, in September, a political newspaper, un-der the name of the WASHINGTON SENTI-

In doing so, it is proper I should make known the principles it will maintain, and the policy it will advocate. It will support cordially and carnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Department of the Government, except in so far as an independent maintenance of the doctrines of that

earty may represent its opinions and express its It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public apport by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnation of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United States.

The Sentines, will maintain, as a fundamental truth of that great party, that the States formed the Union between them by the ratification of the Constitution as a compact; by which, also, they created the Federal Government, and delegated to it, as their common agent, the powers expressly specified in it, with an explicit reservation of all others to the States, or to their separate governments. The exercise of any powers beyond these thus delegated, is, therefore, an usurpation of the reserved authority of the States by the agent of their own creation.

their own creation.

The SENTINEL will uphold and defend the Union upon the basis of the rights of the States—under the Constitution—and thus by sedulously guarding the latter, it will the more effectually strengthen

and perpetuate the former.

With regard to the exercise of the powers of the Federal Government, the Sentinel will take as the principles of its action, that Congress shall exercise no power which has not been delegated by the Constitution, according to a strict stad fair interpret tion of its language and spirit; and that it shall no seek to attain indirectly an object through the exercise of constitutional power, for the direct attainment of which it has no delegation of power. In other words, all powers exercised must be used for no surpose, except such as is clearly intended by the Constitution.

In respect to the internal administration of the

In respect to the internal administration of the Government, the Sentinel will sustain the settled policy of the Democratic party. It will labor to inculcate this cardinal doctrine of Democratic in ternal policy:—that this Government will best promote the freedom and prosperity of the people of the States, by being less ambitious to exercise power, and more anxious to preserve liberty; and by leaving to the individual States the management of all their domestic concerns—while it contents itself with guarding the confederacy from external violence, and directing the foreign policy of the country to the promotion of the common interests, and defence of the common rights, and honor of the States composing it.

gas, filed August 5, 1854. Letters patent assued August 22, 1854.

"I do not claim as my invention and discovery self. mon motive to colonial extension has developed

self.
Our settled determination to repel interference from abroad with our domestic concerns, will prompt us to avoid it in the affairs of other countries, unless by their foreign or colonial policy our peace should be threatened, our security endan gered, or our interests invaded. For when the selfish interests of other nations prompt a foreign or colonial policy which infringes upon our rights, and places in the pathway of our commerce a dangerous and unfriendly rival, such a policy must be resisted by remonstrance, and, if need be, by be resisted by remonstrance, and, if need

in the twenty second day of August, eighteen hundred and fifty-four.

In testimony whereof, I, Charles Mason, ome missioner of Patents, have caused the seal of the Patent Office to be hereunto seal of the Patent Office to be hereunto is full of important movements, commercial and eight hundred and fifty-four, and of the independence of the United States the seventy-ninth.

Extract from Specification of W. D. Porter on which letters patent were issued August 22, 1854.

Claix.—What I claim as my invention and desire to secure by letters patent is:

"The construction of a gas apparatus or still, consisting of a metallic or other cylinder B, the cones E and D, diaphram plate C, and exit pipe F, substantially as described in the foregoing specification, and shown in the accompanying drawings."

The touth of the abstract was securated from the first word and fifty-four.

The touth of the abstract was caused the apparently aggressive. Our administration should be vigilant, watchful, and energetic. The world is full of important movements, commercial and political, deeply concerning American trade and American power. It is time we had an American power. It is time we had an American foreign policy. We must have it. We cannot avoid it if we would. We have larger interests, and a greater stake in the world and its destiny, than every other people. We occupy the best portion of a continent, with no neighbors but a colony, and a worn-out, anarchical despotism. We are the olay people whose own land, without colonial defendencies, is washed by the two great oceans of the world. Our agricultural productions are more varied and more essential to civilized life, and taken and the production of the control of the contro the world. Our agricultural productions are more varied and more essential to civilized life, and is human progress—our mineral and manufacturing resources more vast—our facilities and capacity for internal and foreign commerce more extended than those of any other people living under one government. A continent, to a great extent, unexplored and exhaustless in its yet hidden wealth is at our feet. European trade seeks the great East through avenues which are at our doors, or must be made through our own limits. Europe, Asia, Africa, and the isles of the sea, lying all around us, look to us as the rising power, through the agency of whose example, and ever widening and extending, though peaceful influences, the blessings of liberty, civilization, and religion, are destined to triumph over the barbarism and superstition of the millions of the world. And shall such a people refuse to lay hold upon their destiny, and act upon the high mission to which it is called? A mission so full of hope, though so laden with responsibility, which, if properly directed, must make our confederacy the harbinger of peace to the world, as well as the peaceful arbiter of its destiny.

The SENTINEL will, therefore, advocate a bold and cornest foreign policy, such as the condition of the country demands; but it will advocate it under the country demands; but it will advocate it under the flag of the country—nowhere else. Its foreign policy must be consistent with the spotless honor and unimpeaceable good faith of the country. To be respectable at home and abroad, and to be great in the eyes of the world, it must ask for nothing but what is right, and submit to nothing that is wrong. It must be liberal and magnanimous to the rights of others, and firm and immoveable in insisting on its own. It must, in fine, be true to its own interests, rights, and honor—it cannot then be false to those of other nations.

Such, then, is the chart by which we shall be

be false to those of other nations.

Such, then, is the chart by which we shall be guided. Independent and free, we shall endeavor to be honest and truthful. The true friends of democratic principles we shall cordially support and defend. Its enemies in the field or in ambush we shall oppose, and on all proper occasions de

nounce.

To our future brethren of the press we extend the hand of friendly greeting. The Sentinel is the rival of no press of its own party—the personal enemy of none of the other. The present Democratic Administration has our best wishes for its success in the establishment of the great principles upon which it came into power, and in its honest labors to attain such an end it will find the SENTINEL its friend and condition.

BALTIMORE AND OHIO RAILROAD Having greatly improved its Western connections now offers the fullest inducements to travellers between Washington, Baltimore, and all portions of the West, the Northwest and the Southwest.

The connection between the trains from Washington, Baltimore, and all portions of the West, the Northwest and the Southwest.

The connection between the trains from Washington and the trains bound west from Baltimore is always promptly made at the Washington Junction (lately called the Relay House) 9 miles from Baltimore. This is the only change of cars required between Washington and the Ohio river. Baggage is checked through to Wheeling at the Washington station, and rechecked and transferred there, (with the passengers) without charge, for those holding through tickets for points beyond. The connecting trains leave Washington daily at & a. m. and 4½ p. m. On Sundays at the latter hour only.

At Wheeling direct connection is made with the trains of the CENTRAL OHIO RAILROAD, runtrains of the CENTRAL OHIO RAILROAD, running from Bellatra on the Ohio, near Wheeling, through Cambridge, Zanesville and Newark, to COLUMBUS. These trains connect at Newark with the cars of the Newark. Mansfield and Sandusky Railroad for Sandusky, Toledo, Detroit. Chicago, St. Louis, etc.

At Columbus the C. O. Railroad trains connect with the fast trains of the Little Miami Railroad to Xenia, CINCINNATI, LOUISVILLE, etc. At Xenia (on Little Miami Railroad) connection is

to Xenia, CINCINNATI, LOUISVILLE, etc. At Xenia (on Little Miami Railroad) connection is formed with the trains through Dayton, to INDI-ANAPOLIS, Terre Haute, Lafayette, Chicago, Rock Island, St. Louis, etc.

ID Passengers holding through tickets for Memphis, Vickburg, Natchez, New Orleans etc., which are also sold at Washington, are transferred at Cincinnati to the Mail Steamers on the Ohio. Tickets for Evansville, Cairo, and St. Louis are sold by this route.

old by this route.

IF FOR CLEVELAND, and via Cleveland to of the States, by being less ambitious to exercise power, and more auxious to preserve liberty; and by leaving to the individual States the management of all their demestic contensus—while it contents itself with guarding the confederacy from external violence, and directing the foreign policy of the country to the promotion of the common rights, and honor of the States composing it.

The SENTINEL will advocate such a progressive foreign policy as well suit itself to the exigencies, and correspond with the expanding interests of the country. That policy should be energetic and decided; but should temper firmness with liberality, and make its highest ends consist with the strictest principles of justice. The real interests of the country, upon each occasion demanding attention will be its guide in the course the SENTINEL will be returned in a few days to the seaturally aggressive. In the growing sense of weakness of some of the national policy of the states composing it.
